
Feature Section : Current State and Problems of Nurturing the Next Generation

Lectures on the Environment as Education of Next Generation at an Elementary School
by University Students

OKAJIMA Kenji, SUGIURA Mikiko, YAMAOKA Kazumi and IIDA Toshiaki.....3

Practical Career-oriented Rural Engineering Classes, Faculty of Agriculture, Ehime University

FUJIHARA Masayuki and SAKURAI Yuji.....7

A Case of Training in National Institute for Rural Engineering ‘Continuing Education ;
Technical Training’

KOJIMA Yoshitsugu.....11

A Case of Training in National Institute for Rural Engineering ‘Technical Training System
and Internship’

MARUMO Nobuki.....15

Technical Reports

Considerations in Design of Compensational Renovation Works

—Case Study of Siphon Renovation—

YORIOKA Susumu.....26

Investigation of the Cracks Appeared in the Tunnel Lining

KUSANAGI Hiroki.....28

Construction Works for Land Readjustment of Acid Soil Area

UCHIYAMA Yasuhiro and KOBASHI Jun.....30

Repair Works of Agricultural Channel Considering Row of Cherry Blossom Tree at
Maekawa Levee

NISHIURA Shigekazu and OKUDE Yoshinori.....32

Availability of Bamboo Charcoal as Filter Materials of Subsurface Drainage Instead of Chaff

SHIBASAKI Kazuyoshi and ISHIDA Nobuhisa.....34

Prevention of Soil Erosion Using the Biological Soil Crust

TOMISAKA Mineto.....36

Technical Word

Management of Technology

KAMINISHI Ken.....38

WATER,
LAND AND
ENVIRONMENTAL
ENGINEERING

Feature Section : Crisis Control of the Reservoir

Hazard Map System for Earth Dams

TANI Shigeru, INOUE Keisuke and OINAKA Hiroyasu.....3

Introduction and Application of Ground Penetrating Radar to Sediments Investigation
in Small Earth Dams

KURATA Takashi, MATSUMOTO Nobuki, TAKAIWA Tsunehiro and INAGAKI Masaharu.....7

Application of HPFRCC for Over-flow Section

TAKEUCHI Kunio, SAKAMOTO Yasufumi, HAYASHI Daisuke and HASHIMOTO Manabu.....11

Detection of Leakage in the Irrigation Reservoir by the Use of Infrared Thermometer

NISHIYAMA Soichi.....15

The Development Situation of Disaster Prevention Measure for the Irrigation Ponds
in Hyogo

HASESAKA Kenji.....19

Papers

Utilizing “Picture Books of Civil Engineering” to Educate Young Generations as
Potential Agricultural Engineers

MASUYAMA Kiyoto.....23

A Consideration on Success Factors for “Soil and Water Conservation Practices”
in the Inter-Andean Valleys of Bolivia

OUE Yasusada.....27

Consecutive Irrigation Reservoir System in Semi-Arid Area of East Africa

TAKAHASHI Satoru, HOTTA Tomoki, KITANAKA Makoto, SUZUKI Shinji

and *TOYODA Hiromichi*.....33

Technical Reports

Countermeasure for Runoff Sediment Using Sedimentation Basins during the Project
for Upstream Wetland

TAKEBE Takeshi, TSUJIUCHI Takeshi and HIRATA Yuichi.....38

Improvement of Soil Foundation of River Embankment Using the Power Blender Method

ISOME Tsuyoshi and YAMASHITA Daishin.....40

Use of Existing Facilities for Repair of Irrigation Pond

MINESHIMA Masae.....42

Support to Highly Value-Added Agriculture in Nonoe Area

ISHIGAKI Hiroo and KOZAKA Nobuhiro.....44

Construction for Second Term of Wide-Area Farm Road in Tojo District

KANESAKI Hiroyuki and MURAKAMI Takamitsu.....46

Repair of Irrigation Canals in Hilly and Mountainous Area

UENO Ryuji.....48

Technical Word

Non-structural Measures for Disaster Reduction of Earth Dam

INOUE Keisuke.....50

Feature Section : Biodiversity Conservation in Rural Areas

- Approaches and Issues on Environmental Remediation in an Aquatic Area with Paddy Fields
MIZUTANI Masakazu.....3
- To Sustain Ecosystem Conservation in Agricultural Canal and Paddy Field
MORI Atsushi.....9
- Hard Technologies Needed for Environmental Rehabilitation
—A Viewpoint of Fishway Technologies—
SUZUKI Masaki.....13
- Procedures and Methods of Consensus Building in Ecological Land Consolidation Projects
HIROTA Jun-ichi.....17

Papers

- Environment-conscious Design in the Chushindaira National Irrigation and Drainage Project
EGAWA Haruhiko, WADA Hideki and HASEBE Hitoshi.....21
- Effect and Issue on Poverty Reduction by Micro Finance Project in Rural Area in Honduras
AGO Hideo, NAKAGIRI Takao, HAYASHI Yukihiro and TAKASAGO Hajime.....27
- 3-D Modeling of a Farm Pond and Estimation of its Water Storage Using a Portable LiDAR
HOSOI Fumiki, NISSAKA Akira, OHNISHI Ryouichi and OMASA Kenji.....33

Report

- Water Resources Planning & Management of Nile Basin Initiative
KITAMURA Koji.....37

Technical Reports

- Cost Reduction Using Cement Foamed-Asphalt Stabilization Method for Farm Road
Rehabilitation
HAGA Korenori, ESAKI Tetsushi, KANNO Yasuyuki and KOWADA Keita.....42
- Stock Management in Izumidagawa Area
IWAKURA Tatsuya and TAKAHASHI Mitsuru.....44
- Cost Reduction in Renewal of Pumping Facilities at Headrace Fukuoka Pump Station
IRISHIMA Naoya and YOSHIHISA Yasushi.....46
- Development of Method for Integrated Agricultural and Rural Reconstruction Support
through Participatory Approach in the Democratic Republic of Timor-Leste
WATANABE Mamoru.....48
- Bridgework of Rural Road in Iwawaki District Using PC Composite Slab-Girder Bridge
TONOGAI kenichi.....50
- Execution Test of Cover Plant Using the Tif-Blair for Levee Slope
Effectiveness of DSM (Digital Surface Model)
YASUDA Yoshiteru, UCHIMURA Masaomi and ASAI Ryoji.....54

Technical Word

- Renewable Energy
KOBAYASHI Hisashi.....56

Feature Section : Improvement in “Land and Water” for Contribution to Region

The Material Soil Resource Distribution and the Indicator Values for Soil Dressing to
Multipurpose Paddy Field *KITAGAWA Iwao*……3

Measures for the Abandonment Farmland and Regional Revitalization by Rice Terrace
Conservation *NAKAZATO Ryoichi*……7

A Cluster of Agricultural and Academic Sectors to Improve Social and Natural Environment
in the Rural Area *AODA Tadao and INABA Kazunari*……11

Proposal of Basin-wide Irrigation Planning in Extremely Data Scarce Areas
*NAGAI Kaoru, WATANABE Masahiko, IHARA Akihiko, MASUMOTO Takao
and YOSHIDA Takeo*……15

Evaluation of Strength on Slip Surface for Landslide Stability in Shimekake District
SHODA Daisuke and KAWAMOTO Osamu……19

Papers

Monitoring of Aquatic Biota in a Drain Canal by Applying Environmentally Friendly
Improvement Methods *UNOSAWA Masami, YOSHIHARA Osamu and TANAKA Hajime*……23

A Global View on Major Donors Assistance for Agriculture and Rural Development
MISAKI Takahito……27

Safety Net for the Agricultural Labourer in Uzbekistan *NARUOKA Michio*……31

Technical Reports

Consideration of Habitat Conditions of Red-crowned Crane on Construction Project
TANAKA Shinya……36

Promotion of Concrete Products Using Recycled Aggregate
YURI Kanako and KOMATSU Tsutomu……38

Maintenance and Its Perspective for Main Canal of Left Bank of Sagami River
OHTA Kensuke……40

Measures to Remove Asbestos Cement Pipes in the Toyogawa Irrigation System
TERADA Morio and MORIUCHI Hiroyo……42

Repair Works for Open Channels Based on Planning of Functional Maintenance
INOSHITA Kazuyuki……44

Construction of West Saga Waterway by Large Diameter Pipe Jacking Method
SHIBATA Tomohiro……46

Technical Word

Synthesis of the Science/Technology in Land and Water *KOIZUMI Takeshi*……48

WATER,
LAND AND
ENVIRONMENTAL
ENGINEERING

Feature Section : Development and Application of Numerical Analyses on Soil Structures and Underground Structures

Study about Behavior of Fill Type Dams during Liquefaction by Dynamic Effective Stress Analysis

HAYASHIDA Yoichi, MASUKAWA Susumu, ASANO Isamu and TAGASHIRA Hidekazu.....3

Finite Element Analysis Considering Construction Process for Buried PipeLine

MOHRI Yoshiyuki, ARIYOSHI Mitsuru, KAWABATA Toshinori and TANAKA Tadatsugu.....7

Numerical Analyses for Lateral Behavior of Buried Pipeline by Distinct Element Method

KAWABATA Toshinori, SAWADA Yutaka, KASHIWAGI Ayumu,

MOHRI Yoshiyuki and ARIYOSHI Mitsuru.....11

Rigorous Limit Equilibrium Method for Pile Design against Landslide

SHODA Daisuke and KAWAMOTO Osamu.....15

Application of the Particle Filter to Reliability-based Design for Geotechnical Structures

SHUKU Takayuki, NISHIMURA Shin-ichi, MURAKAMI Akira and FUJISAWA Kazunori.....19

Simple Distinct Element Modeling for Practical Application

FUKUMOTO Yutaka, SAKAGUCHI Hide and MURAKAMI Akira.....23

Papers

Potential Use of Scenarios in Agricultural and Rural Planning

HASHIMOTO Shizuka.....27

Agriculture and Water Use in Hue Province in Central Vietnam

ISHIGURO Munehide, TRAN Thi Thu Ha, PHAM Viet Dung and MAEDA Morihiro.....33

Current Condition and Issue for Wet Meadow Rice Production in Ethiopia

NARUOKA Michio, HAYATA Moichi, MORISHITA Masaki and FUJIMOTO Naoya.....37

Technical Reports

Effects of Agricultural Land Reclamation and Readjustment Projects on the Reduction of Working Hours

TADA Hirotsugu, HABARA Shinya and NAKAMURA Hideto.....48

Consideration of Ecological System on Repair Works for Irrigation Canal

MURAKAMI Kouetsu and HASEBE Hiroyuki.....50

Pneumatic Transportation of Concrete in a Long Distance in Ryoso District

YOKOYAMA Akihiro.....52

Consideration of Regional Landscape on Repair Works for Itogachou Shin-Ike

YAMASAKI Toshiyuki.....54

Design of Fishways to Facilitate Migration of Marine Lives in Head Works of Kaifu River

WAKABAYASHI Yuuki.....56

Functional Diagnosis of Subsurface Dams

KAMIZATO Mamoru.....58

Technical Word

Present Topics of Ground Anchorage

SAKAI Toshinori.....60

WATER,
LAND AND
ENVIRONMENTAL
ENGINEERING

Feature Section : Improvement and Rural Development Considering Regional Characteristics in Kyushu Area

The Basic and Applied Researches of Irrigation, Drainage and Rural Engineering in
Kyushu University

*HIGASHI Takahiro, FUKUDA Tetsuro, HARADA Masayoshi, WAKIMIZU Kenji
and HIRAI Yasumaru*.....3

Investigation on the Utilization of Non-Solidifying Geopolymer as a Civil Engineering
Material

YONEKURA Hideshi and KONDO Fumiyoshi.....7

Large-scale Land Improvement Projects in the Kyushu Region

OUCHI Tsuyoshi, HIRAIWA Masahiko and MATSUDA Fumihide.....11

Blessing Model Business of Agriculture Brought up with Inhabitants of the Prefecture

KANEKO Takamori.....17

A Characteristic Creek Maintenance Program in the Saga Plain

SHIMAUCHI Toshiaki, NAGAISHI Toshifumi and KUHARA Youichi.....21

Technical Reports

Design of Fishway by the Committee on Environment and Construction Works

ABE Hideto and YAMAMOTO Yoshito.....26

Impounding Test for the Flood-Mitigation Dam in Funyuzawa District

KARASAWA Takahiro and MATSUURA Masakazu.....28

Consideration of Environmental Factors for Ichinoshinden Dam

HIGASHIOKA Hidetaka.....30

Life Cycle Cost of Surface Coating Method Using Epoxy Resin for RC Open Channels

KAWAI Yasunobu, HONJYO Tadao and TSUZUKI Masahiro.....32

Design Value Engineering for Rehabilitation Works of Irrigation Pond

HORISHITA Hisashi.....34

Technical Word

Time Domain Transmissiometry (TDT)

MIYAMOTO Hideki.....36

Feature Section : Principles of Agricultural and Rural Development under “Shrinking Society”
Infrastructure under Sovereign Debt and Population Reduction after Tsunami Disaster
TANJI Hajime……3

Rural Revitalization and Role of Rural Engineering from the View Pint of Regional Economy
KITAGAWA Iwao, SAITO Shinya and TAKAHASHI Junji……7

Can Newcomers to Vacant Houses Revitalize the Depopulated Area? *MAKIYAMA Masao*……13

Evaluation of Water Use and Renewal Demand in Agricultural Pipeline Facilities
SUZUKI Tetsuya, INOKUCHI Takuma, KOHNO Eiichi and AOKI Masao……17

Proposal of Low-cost and Laborsaving Canal Management Techniques Based on Hydraulic
Information *NAKAYA Tetsuo, MORI Mitsuhiro, TOKASIKI Masaru,
ASANO Isamu, MORI Takehisa and OKUNO Rintaro*……21

Papers

Applicability of Wood Based Materials Made of Sanbusugi as Filter Material for Pipe Drain
YANAGIMACHI Sho and ARIHARA Katsuyuki……25

An On-site Survey System for Rehabilitating Concrete Canals Utilizing the Differential
GPS Technology *TAKEZAWA Yoshiharu, MOURI Tadashi and NAGAO Naoki*……31

Report

Current Status and Issues of Arab Water Council *KITAMURA Koji*……35

Technical Reports

Evaluation of Corrosive Properties of Soil for Performance Diagnostics of Pipe Channel
TAKASUKA Toshiyuki and ITOU Sadayoshi……40

Development of Precast Concrete Flume of Environmental Preservation Type in
Aomori Prefecture *FUKITA Masahiro*……42

Design and Construction of Torrent Intakes and Fishway Combined with Former Works
HIRABAYASHI Takayasu and ENDO Ryusei……44

Measures against Low-Frequency Noise of Head-Works *SHIRAEDA Takeshi*……46

Remote Control System for Water Level of Irrigation Ponds *SASAKI Nobuhiro*……48

Maintenance of Cultivated Land in Hilly and Mountainous Areas *SARUWATARI Toru*……50

Technical Word

Shrinking Society *SHIMIZU Ryo*……52

ENVIRONMENTAL
ENGINEERING

Feature Section : Commitment of Young People and Consumers to Agriculture and Rural Society
A New Breath of “Agriculture” in Tokunoshima, Amami Islands
KONDO Naoki and HIROSE Shin……3

The Role Expected by the Consumer’s Temporary Relations to Farming Agriculture and
Farm Village
KAKINO Wataru, INABA Mitsukuni, TOMII Tomiko and KIKUCHI Toshio……7

Participation in Agriculture and Rural Area of University Students by Club Establishment
NAKAZATO Ryoichi……11

Breakthrough of Independent Modification of Community Support Agriculture
AODA Tadao……15

Study on an Evaluation for Regional Brand and its Impact in Purchase Behavior of Rice
YAMASHITA Ryohei……19

Papers

Stabilized Computation of Embankment Erosion of Irrigation Ponds Caused by Overflow
FUJISAWA Kazunori, MURAKAMI Akira and NISHIMURA Shin-ichi……23

Effects of Cultivation Techniques on the Quality of Rice Grain during Hot Weather
Conditions
SAKATA Satoshi, TOMOSHO Tatsumi and UCHIMURA Motomu……27

Irrigation Project in the Locally Distributed Rare Soil Area
*NAKANO Minoru, TOKUNAGA Koutarou, MAWATARI Hiroji, YOSITAKE Hiroyuki,
MIZOZOE Shouichi and NAKAMURA Kenichi*……33

Technical Reports

Application of Smoothing Land Surface Method with Low Cost to Farmland Consolidation
SUGAWARA Hisashi and CHIBA Kiyoto……38

Relation between Drop Works and Noise Generation for Irrigation Channels
HAYASHI Haruna and ARIMORI Masahiro……40

Effect of Leakage Prevention against Regulation Reservoir for Field Irrigation
EGAWA Haruhiko and FUKAGAWA Toshiyuki……42

Rehabilitation of Irrigation Ponds Using Bentonite Sheets
AOYAMA Masayoshi……44

Citrus Producing Area with Consideration for Environment by Carbonization of Rotten Fruits
HIROOKA Nobuo and OONO Hirokazu……46

Countermeasures against Behavior of Tatsuta Tunnel
HAMANO Kouichi……48
