

IRRIGATION, DRAINAGE
AND RURAL ENGINEERING
JOURNAL
No.271

Contents

Research Papers

- Comparison of Characteristic of Water Balance between Evergreen Coniferous and Deciduous Broad-leaved Forests HISADA S., SENGE M., ITO K. and MARUYAMA T. ... 1

Setting of Intrinsic Rate of Natural Increase for Modeling Reproductive Processes of Fish Populations Accompanied with Networked Water Areas TAKEMURA T., WATABE K., MIZUTANI M., KOIZUMI N., MORI A. and PARK Myeong Soo ... 9

Technical Papers

- | | | |
|---|-------|------------------------------|
| Experimental Study on Effects of Reducing Riverbed Scouring through Bed Protection Works Downstream of Weirs | | MIWA H. and TAKAI K. 17 |
| Actual Condition of Paddy Field Levee Maintenance by Various Farm Households including Large-scale Farming in the Developed Land Renting Area | | SAKATA Y. 25 |
| — A case study of the “n” Community in the “y” District in Hakusan City in Ishikawa Prefecture — | | MORI H. 33 |
| Experimental Study of Seepage Failure on Horizontal Ground in Centrifuge Model Test | | |

Contents

Research Papers

Temporal Changes in Fish Assemblage and Environmental Factors in the Drainage Channels that were Improved by Using an Eco-friendly Construction Method	NISHIDA K., MITSUO Y., MINAGAWA A., TSUNODA H., NISHIKAWA H., OHIRA M., SHONO Y. and SENGA Y. ... 1
Assessing the Effects of Data Types and Categorization Methods on HSI-based Habitat Suitability Analysis for Japanese Medaka (<i>Oryzias latipes</i>)	FUKUDA S., MASUDA S., HIRAMATSU K. and HARADA M. ... 11
Reconsideration of Creep Length and Application of Elasto-Plastic Finite Element Analysis to Seepage Failure Problems of Foundations under Weirs	OKAJIMA K., TANAKA T., KOMATSU T. and IIDA T. ... 21
Geomorphologic Characteristics, Statistical Laws of Stream Areas and Models to Predict Drainage Densities for Rill Networks in Sloping Fields	TAKAGI A., NAKAGAWA K. and HIYAMA H. ... 31
Multi-Criteria Analysis for Biomass Utilization Applying Data Envelopment Analysis	MORIMOTO H., HOSHINO S. and KUKI Y. ... 43
Simulation of Nitrogen and Phosphorus Load Runoff by a GIS-based Distributed Model for Chikugo River Watershed	ISERI H., HIRAMATSU K. and HARADA M. ... 53
An Analytical Solution of Seepage Discharge from a Reservoir of Embankment Dam with Triangular Soil Blanket and its Applicability	YOSHITAKE Y., KOBAYASHI N., FUJIHARA M. and NISHIYAMA T. ... 65
Host Fish of Four Species of Unionid Mussels and the Dispersal of their Larvae with the Fish Movement	KONDO M., ITO K. and SENGE M. ... 73
Flood Envelope Curves for the Setouchi Region Derived by Spatial Distribution Analysis of Radar Rainfall	CHIKAMORI H. and NAGAI A. ... 81

Technical Papers

Distinction of Parcels Planted with Rice Using ALOS Satellite AVNIR-2 Data

— Case study in a flat region where there are many paddy fields planted with pasture and many fallow paddy fields —

..... FUKUMOTO M. and YOSHISAKO H. ... 91

Durability of Drainage Improvement by Combination of Main Drain and Trench Drains with Vertical Drains in

Clayey Field Converted from Paddy to Upland Use

..... ADACHI K., OHNO S., FURUHATA M., OGURA C. and TANIMOTO T. ... 99

Contents

Research Papers

Experiment of Critical Swimming Speed of Fingerling Masu Salmon (<i>Oncorhynchus masou masou</i>) Using River Water	IZUMI M. and KATO K. 1
Estimate of the Amount of Freshwater Lens in Tarama Island, Japan	ISHIDA S., TSUCHIHARA T., YOSHIMOTO S., MINAKAWA H., MASUMOTO T. and IMAIZUMI M. 7
Factors Affecting Groundwater Chemistry in Abandoned Terraced Paddy Fields on Sado Island, Japan	OYANAGI N., NAKATA M., MATSUYAMA K., TSUJII N. and TSUCHIDA T. 19
Effect of Aeration and Circulation Treatment of Effluent on Wastewater Purification Functions of a Planted Canal	TSUJI M., YAMADA K. and HIRATSUKA A. 29
Relationship between the Damage Emergence of Agricultural Infrastructure and the Period after the Occurrence of the 2004 Chuetsu Earthquake	ARITA H. and MIYAZAWA S. 37
Experimental Investigation of Erosion Rates of Sand-clay Mixtures and Embankment Failure Caused by Overflow	FUJISAWA K., MURAKAMI A. and NISHIMURA S. 45
Application of Space-Time Conservation Method to Analysis of One-Dimensional Unsteady Flow in Channels with Irregular Geometries	KIMURA M., SHIMADA M., AZECHI I., OKAJIMA K. and IIDA T. 57

Technical Papers

Note

Monitoring of Ponding Water Depth in Paddy Fields Using Small Temperature Loggers

..... FUJIHARA Y. and ODA M. 97

AND RURAL ENGINEERING
JOURNAL
No.274

Contents

Research Papers

Long-term Analysis of Effects of Global Warming on Snow Water Equivalent at the Tedori River Basin	NOTO F., MARUYAMA T., HAYASE Y., TAKIMOTO H. and NAKAMURA K.	1
Deterioration Characteristics of Organic Surface Coating Materials of Concrete Open Canals	OKUNO R., MORI M., TOKASHIKI M. and MORI T.	9
Effects of Different Application Methods of Methane Fermentation Digested Liquid into the Paddy Plot on Soil Nitrogen Behavior and Rice Yield	WATANABE S., NAKAMURA K., RYU Chan Seok, IIDA M. and KAWASHIMA S.	17
Characteristics of Nitrogen and Phosphorus Effluent Load from a Paddy-field District Implementing Crop Rotation	HAMA T., AOKI T., OSUGA K., NAKAMURA K., SUGIYAMA S. and KAWASHIMA S.	27
Area Standard: Proposal of a Measure for Environmental Conservation, Corresponding to Changes in Land Improvement Technology	ARITA H. and HASHIMOTO S.	35

Contents

Research Papers

Analyzing Factors That Influence Farmers' Willingness for Performing Maintenance Activity in Participatory Irrigation Management	ONIMARU T. and SATOH M. ... 1
— The lateral irrigation canal 18R area at the Khok Kathiam operation and maintenance project in Thailand —	
Reliability-Based Design for Liquefaction Mitigation by Using Conditional Simulation	NISHIMURA S. and SHIMIZU H. ... 13
Environmental Isotope-based Investigation on Closed System and Hydrological Aspects of Coastal Lakes	TSUCHIHARA T., YOSHIMOTO S., ISHIDA S. and IMAIZUMI M. ... 23
Verification of Improvements in Water Serviceability with Expansion of Regulating Reservoir Capacity in an Irrigation Canal System	ITO Y., TANAKA Y., MUKAI A., TARUYA H. and NAKA T. ... 33
Analysis of Energy Input for Irrigation and Drainage in Lowland Paddy Farming	YOSHIDA S. ... 41
Features of a Flood Runoff of the Beech Primeval Forest Basin Judged from Parameters of a Distributed Runoff Model	SHOJI S., KURASHIMA E. and KUDO A. ... 51
The Effect of Subsurface Water Flow on Herbicide Concentrations and Loads in the Stream Water	GOTO Y., SUDO M., HIDAKA Y. and ODANI H. ... 59

Note

A Method for Selecting Factors Effective to Raise Farmers' Willingness for Maintenance Activity	ONIMARU T. and SATOH M. ... 69

Contents

Research Papers

Utilization Characteristics of Disaster Restoration Projects of Koi Breeding Ponds after the Mid-Niigata Prefecture Earthquake in 2004 SAKATA Y. ... 1
Effects of Salt on the Lead Adsorption and Migration in Marine Clay — Application of natural clay liner to coastal landfill sites — MORISHITA T., OHTSUBO M., Loretta Li and HIGASHI T. ... 7
Estimation of Red Soil Runoff Using Monte Carlo Simulation for Preliminary Evaluation of Support for Red Soil Runoff Prevention Measures under the Condition of Insufficient Information TSUCHIYA H., SAKAI K., YOSHINAGA A., MOMII K., NAKANDAKARI T., SAKURAI K. and ARAKAKI Y. ... 15
Optimum Design of Triangular/Rectangular Soil Blanket under Given Design Seepage Discharge FUJIHARA M., KOBAYASHI N., NISHIYAMA T., IZUMI T. and YOSHITAKE Y. ... 25
Optimum Design of Triangular/Rectangular Soil Blanket under Given Volume of Blanket Material KOBAYASHI N., FUJIHARA M., NISHIYAMA T., IZUMI T. and YOSHITAKE Y. ... 31
Relationship between Historical Change in Site Selection of Koi Breeding Ponds and Water Use Technique in the Niigata Chuetsu Region SAKATA Y., ARITA H., MORISHITA K. and YOSHIKAWA N. ... 37

Technical Paper

Factors That Influence the Willingness of Resident Group Members to Participate in Activities to Maintain Irrigation/Drainage Canals — The Sangouzeki area in Yamagata Prefecture — ONIMARU T., YOSHIMURA A., SHIMA T. and ISHIDA K. ... 45
Remediation of Cd-Contaminated Andisol by <i>Arabidopsis halleri</i> ssp. <i>gemmifera</i> KAMEYAMA K., TANI S., SUGAWARA R., KITAJIMA N. and ISHIKAWA Y. ... 55
Annual Change of Native Vegetation Used for Erosion Control Method on a Cut Slope in a Cold Region with Minimal Snow Depth FUKUDA N., TSUJI O., KIMURA M. and MUNEOKA T. ... 63
A Study on Performance Evaluation and Performance Verification Method of Materials for Sediment Pavement SAKAMOTO Y., SHINOTSUKA M., NAKAMURA K. and OGATA H. ... 71
Stomach Contents of Cut-tailed Bagrid Catfish (<i>Pseudobagrus tokiensis</i>) Juveniles in a Drain of a Tributary of Kitakami River TSUNODA H., DOI M., OHIRA M., MITSUO Y. and SENGA Y. ... 79
Simulation Model for Estimating Reproductive Processes of Fish Populations Living within Networked Habitat Areas TAKEMURA T., MIZUTANI M., KOIZUMI N., MORI A., WATABE K. and NISHIDA K. ... 83

Notes

- Basic Research on Performance Improvement of Functional Overlying Sand on Phosphorus Removal NONAKA T., HYODO M., KUWABARA T. and SATO S. 91
- Possibility of Use of Slag as Materials for Reducing Cr(VI) Elution from the Recycled Concrete Materials KITATSUJI M., HARYU H. and KONNO M. 93
